A very important facet of a Montessori school is the creation of a mixed age environment for the students. As such, here at Light of the World Montessori Preschool, all of the children are in the same room together sharing their learning experience.

Montessori classrooms combine children from 2 ½ yrs to early 5.

Michigan Child Care rule 8182 (5), (6), (7) require us to notify you of this practice and keep your permission on file. Thank you for your understanding.
